

<b>S.C. PRODALCOM S.A.</b> <b>Botoşani</b> Pushkin str. no. 128 Tel.: 0231/534672, Fax: 0231/534164	<b>DATA SHEET</b> <b>FOR</b> <b>COMPLETELY DENATURED</b> <b>TECHNICAL ETHYL</b> <b>ALCOHOL</b>		Code: FTh-BT-20/2014
			ED 0 Rev.: 2    Pag. 1/1
	Revision date: 21.09.2018		

**Trade name:** completely denatured technical ethyl alcohol

**Company standard:** SF BT 20/2014

**Product description:** technical ethyl alcohol obtained as a secondary product in the manufacturing process of food-grade ethyl alcohol of agricultural origin and completely denatured according to point 78, paragraph (2) and point 79 paragraph (6) letter a) or b), Methodological Regulation for the application of Law no. 227/2015 on the Fiscal Code applied by GD 1/2016 in conjunction with GD 354/2018.

**Use:**

- cleaning, degreasing, pickling agent;
- in the chemical industry, solvent for paints;
- prevents the water in the tank from freezing.

**Composition:**

- technical ethyl alcohol, min. 93% vol
- denaturants: - isopropanol, 1 litre of pure chemical/hl absolute alcohol;
- methyl ethyl ketone, 1 litre pure chemical/hl absolute alcohol;
- denatonium benzoate, 1 gram pure chemical/ hl absolute alcohol.

**Physicochemical properties:**

No.	Feature	Conditions of admissibility
1.	Alcoholic strength % vol., 20°C	min. 93 %
2.	Aspect	Clear, colourless liquid, free of sediment or suspended impurities, with a characteristic smell of Ethyl Alcohol

**Safety:** it is an irritating and inflammable product. For more information, please refer to the Safety Data Sheet.

**Packaging form:**

- packed in 1 or 3 litre plastic bottles.
- bulk, containers or other containers depending on the customer's request.

**Storage conditions:** in ventilated, dry, clean rooms, away from heat sources and fire at temperatures of -5...+30°C.
